

eMH2 WALLBOX

MASTER+ WITH CHARGING SOCKET

22 kW

The eMH2 Wallbox is our smart, attractively designed charging solution for domestic and semi-public applications. The translucent cover shows color backlit pictograms to indicate the current charging status. The integrated RFID module ensures fast and secure access. This eMH2 Master+ provides one Type 2 charging socket with a charging capacity of up to 22 kW. Our Wallboxes come with an integrated Type A RCD and DC fault current detection preinstalled. An additional Type B RCCB is therefore not required. The Wallbox eMH2 Master+ is prepared for use as a master. The master/slave configuration is suitable for multiple charge point applications in combination with a backend billing system. OCPP 1.6 communication can be established using Ethernet, WIFI or LTE.
