

REACH – Conformity

July 2023

We hereby confirm that ABL GmbH products meet the requirements of the Regulation (EC) No 1907/2006 (REACH Regulation).

FYI:

The confirmation of conformity shall also include the amendments to Annex XVII made by Commission Regulation (EU) 2018/2005, (EU) 2019/1021 und (EU) 2020/784.

The products you purchase at ABL are articles and in terms of REACH do not need to be registered. We are primarily user of mixtures and products (downstream user).

The substances contained and as the case may be are due to registration therefore needed to be registered by our subcontractors. We ensured this corporately with our suppliers.

According to Article 33 of the REACH Regulation our suppliers have the obligation to inform us if a Substance of Very High Concern (SVHC) are contained in a concentration > 0.1 % (w/w) in a purchased product.

The identification of a substance as a Substance of Very High Concern is done by the inclusion to the so called Candidate List of the European Chemical Agency (ECHA). We are monitoring the REACH Regulation periodically and are in permanent contact with our suppliers. In case we receive relevant information, we will immediately notify you and take care that the substance is replaced by a less hazardous alternative.

Latest information on Substance of Very High Concern you will find under “**Reach Customer Information**” on our homepage www.abl.de.

Please direct any questions and suggestions either to: info@abl.de

Best regards

ABL GmbH
